The Tea Garden Valley Initiative

Live Demo: https://shamim-dot-in.github.io/The-Tea-Garden-Valley-Initiative/

Project Overview

The Tea Garden Valley Initiative is a static website that showcases the natural beauty, cultural heritage, and tourism opportunities in Sreemangal, Bangladesh, popularly known as the "Tea Capital of Bangladesh." The website aims to provide visitors with information about tourist destinations, hotels, and tour packages in the region, offering a visually appealing and easy-to-navigate experience.

The project is ideal for tourists, travel enthusiasts, and anyone who wants to explore the lush green landscapes of Sreemangal virtually.

Features

- Home Page: Welcome section with overview of Tea Garden Valley and Sreemangal.
- Destinations Page: Detailed information about popular tourist spots and attractions.
- Hotels Page: List of hotels and accommodation options for travelers.
- Tour Packages Page: Overview of tour packages and travel itineraries.
- Contact Page: Form for inquiries or information requests.
- Responsive Design: Fully responsive layout for mobile, tablet, and desktop.
- Static Website: No backend needed; easy to host on GitHub Pages or any static server.

Technologies Used

- HTML5: Semantic markup and structure.
- CSS3: Styling, layout, and responsiveness.
- JavaScript: Interactive elements (if any).
- Fonts & Icons: Google Fonts, icon libraries.
- GitHub Pages: Hosting the live site.

Project Structure

```
/ (root)
├── index.html
├── about.html
├── Destinations.html
├── Hotels.html
```

```
├── Tour_Packages.html
├── Contact_us.html
├── css/
├── fonts/
├── images/
├── js/
├── robots.txt
└── sitemap.xml
```

- HTML files: Contain the pages and content.
- CSS folder: Custom styling for all pages.
- JS folder: JavaScript for interactive features.
- Images folder: All images used in the project.
- Fonts folder: Any custom fonts used.

Instructions to Run Locally

1. Clone the repository:
   git clone https://github.com/shamim-dot-in/The-Tea-Garden-Valley-Initiative.git
2. Open the folder: Navigate to the project folder.
3. View the website: Open index.html in your browser.

No additional installation or server setup is required.

Contribution

- Add more destinations, hotels, and tour packages.
- Improve styling, layout, and responsiveness.
- Optimize images and SEO for better user experience.
- Fix any bugs or improve accessibility.
